Dear Mr. Barr and Mr. Phinizy,

Thank you for presenting and leading the VCU School of Medicine Lunchtime Learning session *Now Presenting: Creative Presentations That Captivate, Inform, And Inspire* on February 20, 2019. Ensuring that our faculty are aware of best practices and strategies for delivering insightful presentations is central to our mission in the VCU SOM Office of Faculty Affairs. Our faculty thoroughly enjoyed the first session you two delivered in June 2017, and we were delighted to have you speak with our audience of 60+ faculty and staff a second time in February 2019, as they sought to continue to build their presentation skills. This session was a wonderful prelude - and faculty development opportunity - for our 2019 Health Science Education Symposium where faculty presented their research in brief, 10-minute, oral presentations.

Per your session's evaluation, participant feedback indicated it was **extremely well-received** and contributed to the development of faculty skills sets and knowledge. Specifically, as a result of your session, select participants stated the following anticipated changes to their practice:

1. *[I will] spend more time contemplating design choices and identifying captivating images to enhance [my] presentation.*
2. *[I will] be more intentional about preparing slides as an adjunct to the presentation.*
3. *I will look in the [resources via email] and go to Lynda.com for extra training.*

We value you and your expertise! And, we appreciate your engagement with the VCU School of Medicine Office of Faculty Affairs and the MCV campus community.

Best,

Kenneth W. Foster, Ed.D.  
Affiliate Faculty & Instructional Technologist for Medical Education  
VCU School of Medicine
